

Sun Protection in Schools Policy

Date Modified: August 2024

Scheduled Review: August 2025

Purpose

All department school sites and early childhood education and care services must have a sun protection policy in effect. Sites must inform the school community including employees, students, parents and volunteers of the sun protection policy. Children and young people are encouraged to be responsible for their own sun protection.

Using sun protection

The school uses a combination of sun protection measures for all outdoor activities on and off site in terms 1 and 4.

Clothing

Sun protective clothing is included in the school uniform/dress code and sports uniform. The clothing is cool, loose fitting and made of closely woven fabric. It includes shirts with collars and elbow length sleeves, longer style dresses and shorts and rash tops or t-shirts for outdoor swimming.

Sunscreen

Students must provide their own SPF 30 or higher broad spectrum, water resistant sunscreen.

Sunscreen is applied at least 20 minutes before going outdoors and reapplied every two hours if remaining outdoors.

Strategies are in place to remind students to apply sunscreen before going outdoors (e.g. reminder notices)

Families with children who have naturally very dark skin are encouraged to discuss their vitamin D requirements with their GP or pediatrician.

Hats

All students and staff are required to wear hats that protect their face, neck and ears e.g. broad brimmed hats, whenever they are outside. Baseball or peak caps are not acceptable.

Shade

Care is taken to schedule outdoor activities outside of the peak UV radiation times or in the shade where possible.

Sports days and other outdoor events to be held during term two or three, earlier in the day where practical.

Students are encouraged to use available areas of shade when outside.

Students who do not have appropriate hats or clothing are asked to stay in the shade or a suitable area protected from the sun (eg. Inside the gym, under the COLA or Karen Wallace shelter)

Curriculum

Programs on skin cancer prevention are included in the curriculum for all year levels.

Sun Smart behaviour is regularly reinforced and promoted to the whole school community through newsletters, parent meetings, staff meetings, school assemblies, student and teacher activities and in student enrolment packs.

The information has been extracted from the [Cancer Council SA SunSmart policy](#)
